## What you need to know that's not in the job description

### **What's the church like?**

It's pretty great. We are multi-generational but we are a bit thin on the younger end of the scale. Our senior pastor was called in 2018 and has been leading us to a vision of "A church that unchurched families love to attend". That makes the families pastor a key position.

The church was planted from nearby Mayfield Church of Christ approximately 40 years ago and has been in its building for 25 years. We are in the commercial hub of Maitland right across the road from the biggest shopping center in the region.

We are not a big church, yet. Pre COVID-19 our average weekly attendance was just over 110 people with around 10% each week being visitors from the local area.

We are not an "only open Sunday" church. We run an op-shop during the week and invite a range of community activities to work out of our building. This has created a dynamic environment where the community expects us to be present.

We are about doing everything we can to engage with our local community so that they will come to know Jesus. We host a lot of events on our 2-acre property and they are gaining traction in the community.

We are about discipleship for those in Christ and follow a Growth Track to help people: Know God, Find Freedom, Discover Purpose and Make a Difference.

### **Where does this ministry fit?**

The ministries facilitated and led by the family's pastor are not incidental to the life of the church, they are a vital part of our vision and how we grow. The role is facilitated in partnership with the senior pastor to ensure alignment to our vision and Growth Track.

These ministries are designed to engage families, make disciples and create a thriving culture within the life of the church that grows with the individual. In 20 years' time we want to see the kids that emerge from this ministry thriving spiritually and serving Jesus joyfully.

### **What's Maitland like?**

Maitland is a growing area due to its proximity to Newcastle and an abundance of affordable new housing developments. It's halfway between Newcastle and Hunter Valley vineyards and has a relaxed regional vibe.

80% of the population of Maitland arrived in the last 20 years which makes it feel young but also brings issues of social isolation. This is a key community concern and one the church aligns its activities to relieve.

### **What we hope from you**

That you have a heart to see kids grow to become imitators of Christ. That you have a spirit that sees mountains as places to climb, not places to avoid.
